

Graduation Transitions - Portfolio 11

Assignment 1: Guest Speaker Dr. Peter Liljedahl

Due Date: Monday December 9th, 2013

Your assignment is to write a two-part reflection based on Dr. Peter Liljedahl's lecture on October 30th.

Part One:

Dr. Liljedahl spoke on a variety of topics and left us with many ideas to think about. Describe the most important or meaningful message *you* took away from his lecture. Why was this idea meaningful to you? How can it impact your life right now? How might it affect your future goals or decisions?

Part Two:

Describe something you have always wanted to do (try an activity or attend an event? join a movement or organization? another opportunity?). What about this activity appeals to you? What about this activity challenges you? Why haven't you tried it yet? Describe the steps you would need to take to make this idea a reality.

The completed assignment will be kept in your file. All assignments will be returned to you in March of your Grade 12 year when you complete your graduation portfolio.

Your assignment should be approximately 2 pages single-spaced using 12-point font.

All assignments must be typed and clearly marked with your first and last name and grade. Please hand completed assignments in to the school office.
